CHARLIE DIX

2D ANIMATOR + CREATIVE TALENT

A switched on 2D animation talent, I take my inspiration from modern children's TV including The Amazing World of Gumball, Adventure Time and Gravity Falls to craft an artistic style that screams originality. Engaging audiences with clever humour and character building. I bring the ability storyboard series, animate characters and plug-in lip-sync and audio cues to manage projects end to end.

Available for commissions, contracts and offers of employment as a 2D Animator or related position.
